

Specimen Collection Kit Instructions (Australia)

Effective 01/01/2018, we are offering our new tests for Lyme Borreliosis, and Tick-borne Relapsing Fever Borreliosis.

- The new ImmunoBlot tests have replaced the original Western Blot tests in most panels.
- The original Western Blot IgG and IgM will still be offered as individual tests.
- Prior to selecting your tests/panels, please review the components listed within each panel.
- Updated Prices for all tests and panels (effective 01/01/2018) are also listed on the new Test Requisition Form.

Thank you for choosing IGeneX for your testing needs. Now that you have received your test kit, consult with your physician to choose the appropriate tests/panels.
