

CLEANSE. SHIFT. TRANSFORM

AmpCoil is pleased to curate an event that is dedicated to wellness, building community, sharing personal experience with Lyme and other autoimmune diseases, and much more. Hear from our Founders, Aaron & Geneva, about their personal experience with Lyme. Learn more about AmpCoil's vision for the future, and sharing this technology in Australia. This is an opportunity to network and connect with like minded people and experience the technology for yourself.

AMPCOIL IN THE U.S.A.

Since the official launch of our very first prototype in 2015, AmpCoil has grown and expanded throughout the USA with 1,400 plus owners, and 225 Independent Brand Ambassadors who consistently share the technology with people recovering from Lyme and autoimmune disease every week, with amazing results.

In April 2018, we established the very first "AmpCoil Lounge" located at our Headquarters in Nevada City, California. In less than one year we have provided over 1,300 coil sessions and supported many people with their healing journeys. In fact, in the small town of Nevada City (pop <4,000) over 10% of locals now own a device as a result of their experience at the AmpCoil Lounge.

As part of AmpCoil's mission to give back and support those who are unable to finance a device, we partnered with the Wellness for Humanity Foundation to create the "Lyme to Wellness" program that is currently servicing 28 families with 3 or more members suffering with Lyme. The data coming out of this program is remarkable, and we continue to develop new programs designed to support those most in need.

EVENT INFORMATION

Join AmpCoil Founders, Aaron & Geneva Bigelow, and discover all you need to know about this incredible, customizable PEMF sound technology that is literally transforming lives across the world.

DATE: Sat. 16 February, 2019

TIME: 1pm - 5pm

LOCATION: 1-3/204 Clarence St, Sydney - LEVEL 1

PARKING: Wilson Parking Station - 190-202 Clarence St

RSVP: by February 8, 2019
